

About Cornell Center for Advanced Computing (CAC) Projects

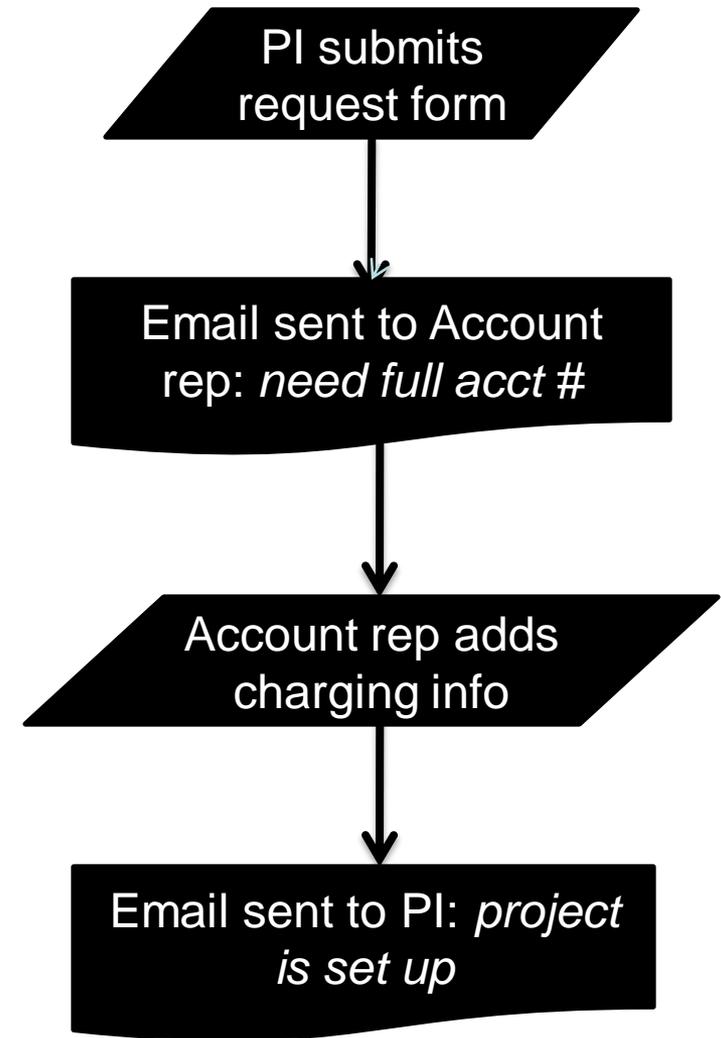

- CAC operates on a cost-recovery model.
- Services are charged to the project's CU account number.
- Published [rates](#) are subsidized by the Provost and revised annually.
- Fee-based services, e.g.:
 - Computing (consider pay as-you-go vs lease)
 - Consulting
 - File storage (RAID 6 w/ HW Error correction on reads/writes, 50 GB min)
 - Cluster maintenance
- No-cost services:
 - [Exploratory accounts](#)
 - General [help](#)
 - [Documentation](#)
 - Training workshops
 - Access to research networks.
